

CONSTANCE WARE

Council of District of Columbia and Government Operations
Council Woman Cheh
March 17, 2010

Good Afternoon Chairwoman Cheh.

My Name is Constance Ware and I Am an injured DC. Government worker and a injured Worker Advocate. My Testimony is in Reference to my Life Insurance. I'm Question Office of Risk Management on my life insurance.

I was a Employer of DC. Dept of Corrections when I became an office of the Dept I began to pay in life insurance which was deducted from my check. Because of No Itemized Statement on my check stub I did not realize that my life insurance was not being paid, until I received a statement on my Health Insurance that it was going up then I realized no life insurance was not being paid. I paid into my life insurance when I was working so when I was injured all of my benefits should have been transferred over to my Workmen's Com.

If I pass away today or tomorrow my life insurance was set up so my children would be able to do my Burial. I have my check stub and it shows nothing. I do have the Health Insurance statement with me today and it shows 0 on life insurance. Where is the money that's suppose to be paid into the life insurance?

Respectfully Submitted
Constance Ware
